COLLECTION OF LEARNERS

We note with concern that many learners are left stranded by drivers who fail to collect learners at the correct times. The management of maintaining social distance is challenged when learners wait for more than 10-15 min for drivers. Parents, we are appealing to you; please exercise vigilance with the safety of your child. Learners **MUST** be collected at the official dismissal times. Your assistance in this regard will alleviate the challenges experienced in the waiting area.

ARRIVAL AT SCHOOL

We appreciate that during the lockdown period the flexibility we had with time management was not necessarily at the front of our mind. Schools are required to follow very strict screening processes even during level one. Given this context, we are strongly recommending that LEARNERS ARRIVE ON TIME, so as to facilitate the process of screening. School gates open at 7:30 am.

LEARNER EMAIL ADRESSES

The school will shortly be sharing email addresses for all learners from grade R -7 (parents to manage) which will make communication far easier as we digitise operations heading into the 2021 academic year.

COMMUNICATION PLATFORMS

It is extremely important that parents check the **school-website** for regular updates with regards to academics, notices and urgent information. Be informed that the website is zero rated for the following service providers (Telkom, cell-C, MTN).
